CANDIDATE 05 | JUNIOR AI ENGINEER

Mysuru, Karnataka; open to relocate to Bengaluru | Relevant experience: 2 years

PROFILE

Early-career developer with project work in Python, NLP and generative AI.

SKILLS

Python, LLM APIs, RAG, Chroma, prompt design, REST APIs, Azure, Docker, pandas, scikit-learn, Git

EXPERIENCE

Software Developer | fictional technology lab | 2024 - present

Implemented Python data-cleaning scripts and REST endpoints for an NLP tool.

Built a small RAG demo over public documentation using Chroma and embeddings.

Tested prompt variations with a 20-question checklist; summarized gaps for mentor.

Used Azure app services for a classroom demo; no production LLM system ownership.

PROJECT

Created a retrieval chatbot with source links as a capstone project.

EDUCATION

B.Tech. Computer Science | fictional institute | 2024
