CANDIDATE 03 | MACHINE LEARNING ENGINEER
Hyderabad, Telangana; open to Bengaluru | Relevant experience: 5.5 years
PROFILE
ML engineer with strong applied NLP and cloud delivery experience.
SKILLS
Python, PyTorch, LLMs, RAG, embeddings, FAISS, Azure, FastAPI, Docker, model evaluation, SQL, MLflow, monitoring
EXPERIENCE
Machine Learning Engineer | fictional analytics company | 2020 - present
Built text classification and semantic retrieval services for enterprise users.
Prototyped RAG over technical manuals using Azure embeddings and FAISS.
Shipped a Python/FastAPI inference service; added Docker and MLflow tracking.
Measured precision, recall and response time on a held-out benchmark.
Set up model monitoring and retraining alerts for a document pipeline.
PROJECT
Developed a grounded answer demo with references; pilot adoption was 140 users.
EDUCATION
M.Sc. Data Science | fictional institute | 2020
